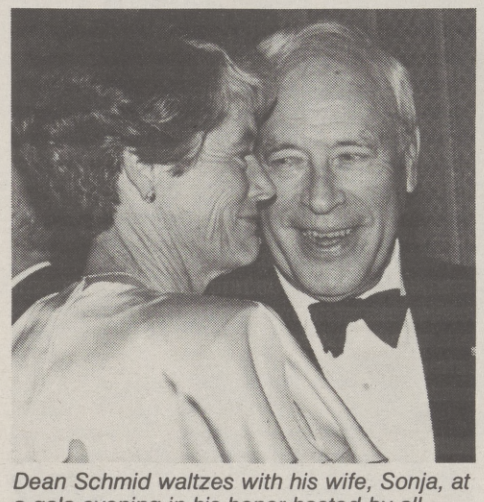
Rudi Schmid Steps Down as Dean; Symposium June 16

Rudi Schmid will step down as dean of the School of Medicine on June 30. The University requires those in academic positions to retire at the age of 67.

During his six-year tenure as dean, Schmid appointed nearly half of the chairs of the School's basic science and clinical departments, choosing highly respected and innovative leaders for medicine, surgery, psychiatry, dermatology, physiology, the history of health sciences, pediatrics, pharmacology, pathology, biochemistry & biophysics and anesthesia, as well as the directors of the Hooper Foundation and the Hormone Research Laboratory.

The appointments included the first black and the first female chairs in the School: Haile Debas in surgery and Dorothy Bainton in pathology.

Under Schmid, the School developed several innovative programs, including the faculty-initiated Program in Biological Sciences (PIBS), an academic program for graduate students which encourages interdisciplinary research and teaching at the leading edge of biology, and the new Molecular Medicine Training Program, which offers selected residents a streamlined, integrated clinical training program with a strong commitment to research conducted in the contemporary biological sciences.



Dean Schmid waltzes with his wife, Sonja, at a gala evening in his honor hosted by all department chairs and directors of campus research units.

Under Schmid, the faculty renewed its commitment to basic medical education and in the last four years has recaptured for education a position of equal importance to research and science. Among his innovations are a new MD-with-thesis program, enabling students to pursue an area in greater depth.

In 1985, Schmid initiated an annual leader-

(continued on page 2)

Meet Our New Vice Chancellor—Brent Stevenson

Brent R. Stevenson, from the University of Nebraska Medical Center, has accepted the position of Vice Chancellor for Business and Fiscal Services. The appointment will be effective July 17 subject to Regents approval.

Stevenson most recently served as the hospital director of U Nebraska's medical center, where he oversaw a 412-bed tertiary care facility. He also coordinated joint ventures with three other hospitals to help lessen community health care costs while increasing resources available to that medical center's faculty, staff and patients.

For four years before that he served as U Nebraska's vice chancellor for business and finance, where as chief financial officer he was responsible for the departments of finance, business services, budget, human resources, affirmative action, equal opportunity and physical plant.

From 1978 to 1981, he served on the Nebraska governor's cabinet as director of the State Department of Administrative Services.

On campus, Stevenson will be responsible for: accounting; business services, including parking, mail, risk management, etc.; information systems, including the computer cen-

(continued on page 2)

Why Did Art Agnos Run for Mayor?

"This is why I ran for Mayor."

"I ran for Mayor because of Pat Underwood," exclaimed Art Agnos at a May 17 reception to celebrate nursing and honor the many nurses he recently appointed to top positions.

Agnos explained that a few years ago, he recommended to Mayor Feinstein that she appoint our School of Nursing's Patricia Underwood to the Health Commission. "But, she didn't take it under advisement. I just had to run and win to get Pat on," the Mayor said.

Underwood is vice-chair, mental health, community & administrative nursing. All of the new appointees, except for Myra Snyder, deputy mayor, Health & Human Services, have UCSF School of Nursing affiliation: Marilyn Chow, appointed vice-president of the Social Services Commission, graduated from the School's doctoral program. Willard Harris, appointed vice-president, Commission on Aging, is an associate clinical professor, family health care nursing; while Mary Foley, a new member of the Mayor's HIV Task Force, helps in the School's occupational health program.

Frances Herb Takes Home the Gold

Frances Herb of San Francisco received the prestigious Gold-Headed Cane Award of the School of Medicine at commencement for 160 medical students last Friday. The award is presented to the UCSF senior medical student judged by classmates and faculty as best exemplifying the qualities of a "true physician."

Gold-Headed Cane winner Frances Herb

The Wednesday before, runners-up Linda Fitts of San Diego and Richard Ponce of Santa Paula were inducted into the Gold-Headed Cane Society.

Herb will serve her residency in internal medicine at UCSF, where in 1980 she received a BS in nursing. Fitts, who received a BA in psychology from San Diego State in 1972, will do a residency in internal medicine at Kaiser in San Francisco, which will lead to a program in radiation oncology at UCSF. Ponce will do his residency in internal medicine at UCLA, where in 1984 he received a BS in psychobiology.

At commencement, the School of Medicine honored nine faculty for their outstanding teaching. The annual Kaiser Awards were presented to: Kent Bottles, pathology and medicine; Eliseo Perez-Stable, medicine and psychiatry; Timothy G. Berger, dermatology;

Dental Graduates Honor Two Staff, Three Faculty at May 31 Ceremony

Graduating students of the School of Dentistry honored three faculty and two staff members during their annual awards ceremony on May 31. The dental graduates' staff recognition award went to Shirley Thompson, while the excellence in teaching award went to Stanley Lorencki, Vern Tueller was honored as the first recipient of the Admiral Paul Riebe Award for outstanding clinical teaching.

The graduating dental hygiene students gave the staff recognition award to Sandra McEldry, while Barbara Heckman won the excellence in teaching award.

When it comes to handing out awards, the School of Dentistry is no slouch. During the ceremonies, 70 honors were given to students in all four years, with multiple awards going to dental graduates Richard Brian Davies, James O. Forge, Chester Paul C. George, Thomas Joseph Marcel, Brian

(continued on page 2)

An Urgent Plea for Beijing Students

UCSF's Association of Chinese Students & Scholars has put out an urgent call for donations to support the students who have been demonstrating for democracy in China, and to aid the families of the many who have died.

Please send your contributions to: Chinese Student Demonstration, c/o Dr. Wang Junhong, 1474-5th Ave., SF, CA 94122. For more information call x69218.

Fingerprinting for "Trustline"

Members of our police department are donating their time to fingerprint child care providers in several San Francisco communities as part of a new child care screening system called "Trustline." This two-year pilot program has been instituted in five California counties. It gives parents the security of knowing their child care provider has no past child abuse history. Above, Patricia McGovern (right) of our police department visits Chinatown to fingerprint the first San Francisco resident for the new program. For further information call Chris Yee at x65683.

Stop Smoking Program Tests Nicotine Patch

A new device is being tested by UCSF researchers in an effort to help people stop smoking. It's a round, yellow patch, which when applied to the skin, delivers doses of nicotine.

Studies have shown that nicotine replacement therapy can be of value for those trying to kick the habit, especially smokers who are highly dependent on nicotine.

Nicotine gum has been used successfully, but it can cause unpleasant side effects, such as nausea, hiccups and excessive salivation in some smokers, says medical psychologist Sharon Hall, who heads the new study at the Habit Abatement Clinic. Also, the smoker must remember to carry the gum and use it throughout the day. "The patches should circumvent the unpleasant side effects that result from oral nicotine ingestion," says Hall.

The Habit Abatement Clinic is seeking volunteers over 18 years old who smoke at least 20 cigarettes a day to test the nicotine patch. Smokers in this free, 12-week study must have smoked for at least five years and not be using other nicotine products. For further information call x67676.

Sharon Hall (left) and project coordinator Mike Gallin show what the nicotine patches look like.

At the party/press conference (left to right): UCSF transportation manager Jim Wood, former UCSF employee Irene Holland (doing business at Tom's for some 25 years), the man of the hour, and Senator Milton Marks. (Rumor has it that Senator Marks found out about Higa's plight from Newsbreak. *Where else?)*

Tom Higa Gets His Gas Station Back

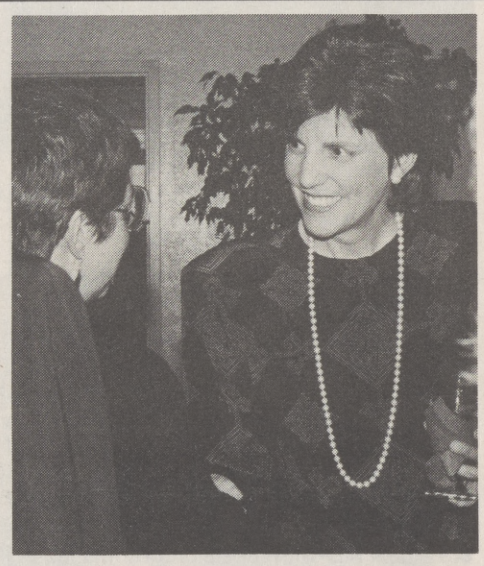
Well, it paid off. The tons of letters from Haight neighbors and friends (many from UCSF people, including the Chancellor), asking Chevron not to close down Tom Higa's gas station on Stanyan and Beulah, worked. Tom has his gas station back, and people couldn't be happier.

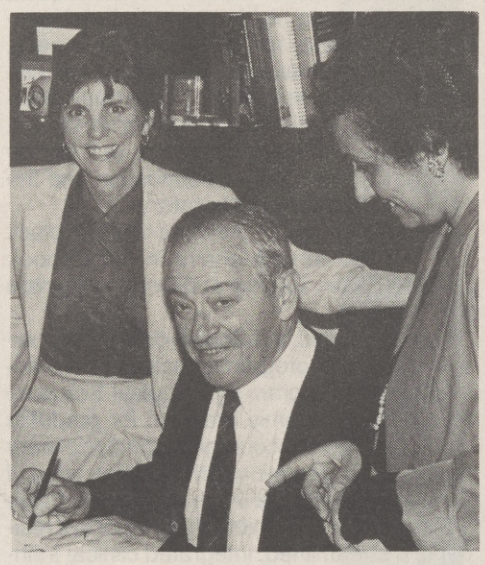
To publicly express his gratitude, Tom threw a press conference last month. It was more of a big, happy party with press coverage. It was hard for all the local radio and TV stations to get a shot of Tom with one of the many local and state politicians roaming about, without someone coming up and patting Tom on the back.

Tom confided to our intrepid *Newsbreak* correspondent, "It's a little scary when you see part of your life dying . . . Chevron did a difficult thing. It changed its mind."

How Many Toys Were There?

Neighborhood child care agencies soon will have a large collection of toys thanks to the successful Chancellor's Staff Advisory Committee's recent toy drive. At the time of this writing some 25 barrels had been filled and still more were being collected. Nestled among one of the several mounds of toys (and offering a big collective "thanks" to everyone who donated) are the key members of the drive: (Clockwise beginning with Fred Flintstone) Child Care Center's Bryon Sigal, CVRI's Suzanne Gottschalk, Dentistry's John O'Connor, Immunogenetics' Marsha Guggenheim, Psychiatry's Anne Poirier, Pharmacy's Trinity Ordoña, News Services' Karen Eldred and Stephen Reynolds, Personnel's Elenor Shimosaka and Pharmacy's Barbara Wilson. Missing is Police Department's Christine Yee.





An Official Welcome, An Official Signing

Nursing Dean Jane Norbeck (photo on left) made a valid attempt to greet each and every person who entered the door to a May 16 campus reception officially welcoming her to her new position. Wishing the new dean well is Meryl Glass, director of our Lucia Child Care/Study Center. Meanwhile, during yet another newsworthy Norbeck event (photo on right), the Dean, Chancellor Krevans and Ferial Aly, dean of the Higher Institute of Nursing in Alexandria, sign an agreement to continue a student and faculty exchange program between the Institute and our School of Nursing. Aly has just left campus to return to Egypt after spending several weeks here as the Lucile Leone Visiting Lecturer.

Dean Schmid *(continued)*

ship retreat to Asilomar at which 50 to 75 departmental chairs and heads of research units discuss long-range plans on specific subjects.

Schmid is internationally renowned for his work in liver disease, particularly on hepatic metabolism and transport of porphyrins, heme, hemoproteins and bile pigments. He served as UCSF chief of gastroenterology from 1966-83 and director of the UCSF Liver Center since 1975.

Schmid now plans to spend more time on international and national programs in medical education, including work with the National Academy of Sciences and trips abroad to promote faculty exchange, particularly in China.

In Dean Schmid's honor, the School will host a symposium on Friday, June 16, from 2 to 4 p.m. in Cole Hall. Guest speakers will include:

- David Kipnis, chair, medicine, Washington University School of Medicine, St. Louis: "A Peripatetic Odyssey in Medical Academe."
- Antony F. McDonagh, UCSF professor, medicine: "From Glarus to Gallenfarbstoffen."
- Daniel E. Koshland, Jr., professor, biochemistry, UC Berkeley: "Societal Issues: Making Mountains Out of Molecules."
- Thomas F. Hornbein, professor and chair, anesthesiology, University of Washington School of Medicine, Seattle: "Mountain Metaphors."

A campus reception will immediately follow the symposium in the School of Nursing mezzanine. An invitational black-tie dinner dance will follow that evening. For further information call x62342.

Joseph B. Martin of Harvard will take over the responsibilities of dean beginning July 1. He is internationally recognized as a leader in the field of neurological sciences, with particular focus on neuroendocrinology and brain peptides. Martin most recently was honored by his alma mater—University of Alberta at Edmonton, Canada—at its 75th anniverary with the Distinguished MD Alumnus Award.

Medicine Commencement *(continued)*

Ralph G. Brindis, medicine; Zrino S. Bezmalinovic, pathology. Honorable mentions went to J. Michael Bishop, Hooper Foundation; Bruce M. Alberts, biochemistry/biophysics; and Kanu Chatterjee and Steven Sackrin, medicine.

The graduating class also presented excellence in teaching awards to: Melvin D. Cheitlin, cardiology; Michael J. Clement, Richard J. Haber and Lawrence Tierney, medicine; Diane S. Colby, biochemistry/biophysics; Jack DeGroot, anatomy and medicine; Warren E. Levinson, microbiology; William Margaretten, pathology; Pablo Stewart, psychiatry; Sexton Sutherland, anatomy; and Sylvia F. Villareal, pediatrics.

The students also presented excellence in teaching awards to housestaff members Prosper Benhaim and Dana Fugelso, surgery; Sang-ick Chang, family and community medicine; Mark Chesnutt, Stephen Coleman and Jose M. Miramontes, medicine; Carol Diamond and Susan Lauritzen, pediatrics; Kelvin Lee, otolaryngology; Carol Major and Cheryl K. Walker, ob/gyn; and Kendra Peterson, neurology.

In addition, 27 students were elected members of Alpha Omega Alpha, the national student medical honor society.

The week before commencement, first-year students chose seven faculty to receive teaching awards. They are: Bruce Alberts, Diane Colby, Antony McDonagh, Alan Rosen, Harold Schultz, Sexton Sutherland and Paul Teresi; while second-year students chose Allan Basbaum, J. Michael Bishop, Kent Bottles, Walter Finkbeiner, Donald Ganem and Roger Simon.

Dentistry *(continued)*

Logan Grey, Cynthia Louis Cox, Claire Harumi Ogata, Robyn L. Moyer, Brian John Hockel and Linda Ukari Kajisa, and dental hygiene graduates Carolyn Bartlett, Cathy Bachman, Emily Castello and Lesa Horve-Sukkestad.

See the next issue of *Newsbreak* for the winner of the Francis A. Sooy Chancellor's Cup, the most prestigious award of the School, honoring scholastic excellence, professionalism and leadership potential, to be given during June 10 commencement ceremonies.

Stevenson *(continued)*

ter, telecommunications and administrative information systems; physical plant; construction project management; materiel management and police. He takes over these areas from Bruce W. Spaulding, who has been named Vice Chancellor for University Advancement and Planning, and who now is responsible for consolidating campus planning, development, public affairs, external relations and environmental impact activities.

In a letter to deans, directors and department chairs announcing Stevenson's appointment, Senior Vice Chancellor Herbert Suelzle said, "Mr. Stevenson's experience and ability fit remarkably well into our newly revised campus administrative structure. I believe the benefit to the entire campus will become readily apparent."

Honors & Awards

Sol Silverman, Jr., professor & chair, oral medicine: Re-elected president of the American Board of Oral Medicine, 1989-90. He also served as Visiting Professor of Oral Medicine at the Pathology Institute, Vrije University, Amsterdam, May 22-26.

Harvey A. Brody, associate professor, stomatology & periodontology; chief, dentistry, Mount Zion: Elected chair of the board of directors of the Federation of Special Care Organizations, which provides educational and policy development for hospital, geriatric and handicapped dentistry.

Guenter B. Risse, professor & chair, history of health sciences: Presented the 1989 Benjamin Rush Memorial Lecture of the American Psychiatric Association, entitled "The Great Neurosis: Clinical Constructions of Hysteria, 1866-1893," on May 10. He also delivered the 1989 Morris Fishbein Lecture of Chicago's Institute of Medicine and Society for the History of Medicine, entitled "Citizens Revolt Against the Polio Quarantine: Oyster Bay, NY, 1916," on May 12.

Albert L. Jones, professor, medicine & anatomy: Elected to the Association of American Physicians.

Donald L. Fink, professor & acting chair, family & community medicine: Elected to the board of the Society of Teachers of Family Medicine and the Society's representative to the Council of Academic Societies of the American Association of Medical Colleges.

Deborah Greenspan, associate clinical professor, oral medicine, stomatology; **John S. Greenspan,** professor & chair, oral biology, stomatology; professor, pathology: Invited to deliver the 1989 Seymour J. Kreshover Lecture of the National Institute of Dental Research, NIH. They will speak on "Pathogens, Probes & Perceptions—The Story of Multidisciplinary Oral AIDS Research" on June 13 in Bethesda.

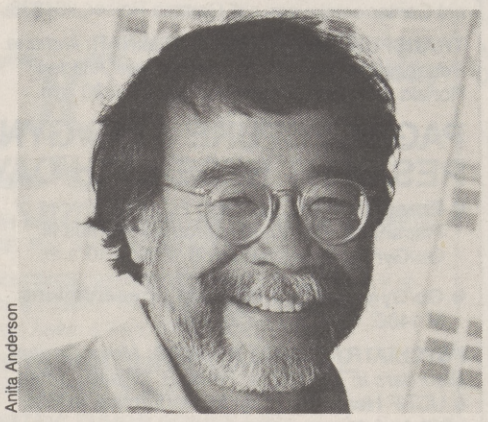
Harry Weinstein, clinical professor emeritus, medicine: Lauded by the Poetry Center in San Francisco in recognition of his contributions to poetry and the community, at a fete in his honor, on Apr. 30.

David A.O. Bracker, development: Appointed to the newly organized Latino Advisory Committee of the 16th California Assembly District by Assemblyman John Burton.

Publications

James H. Leech, assistant professor, medicine & infectious diseases; **Merle A. Sande,** professor & vice chair, medicine; chief, medicine, SFGH; **Richard K. Root,** professor & chair, medicine; professor, microbiology: Editors, *Parasitic Infections* (Churchill Livingston, NY, 1988).

Yamamoto, Kirschner Elected to AAAS



Anita Anderson

Yamamoto

David Powers

Kirschner

Keith Yamamoto and Marc Kirschner are among 99 international scholars, scientists, artists and public figures recently elected fellows of the American Academy of Arts and Sciences.

Yamamoto, professor and vice chair of biochemistry & biophysics, is a renowned molecular biologist who is an expert on hormone interaction with DNA. He chairs the Molecular Biology Study Group of the National Institutes of Health.

Kirschner, professor of biochemistry & biophysics, is an expert in cell biology who, through his work with the proteins that shape and divide cells, has developed new highly sensitive methods of looking at and studying cell structure. He was recently elected to the National Academy of Sciences.

Yamamoto and Kirschner join 11 of their collegues as members of the prestigious Academy: Bruce Alberts, J. Michael Bishop, Herbert Boyer, Louis K. Diamond, Ira Herskowitz, the late Choh Hao Li, William Rutter, Rudi Schmid, Lloyd H. Smith, Walther Stoeckenius and Harold Varmus.

Pediatrician Saul Robinson Dies at Age 78

One of the campus's most distinguished pediatricians and the first pediatric cardiologist in Northern California, Saul J. Robinson, died Tuesday at the age of 78. Eminent in his field for nearly 50 years, Robinson had been a UCSF clinical faculty member since 1966 and was awarded emeritus status in 1980.

Robinson was highly regarded by his colleagues as an experienced senior clinician and teacher who utilized the art as well as the science of medicine.

A 1930 UCSF School of Pharmacy graduate, Robinson received his MD from the University of Colorado in 1937. He was president of the UCSF medical staff from 1980 to 1982, and throughout the years served as president of the American Academy of Pediatrics, the California Society of Pediatric Cardiology and the American Sub-Board of Pediatric Cardiology, which he helped organize.

Robinson received many UCSF awards, including honorary membership in the Gold-Headed Cane Society in 1987, the UCSF Medal in 1986, the Charlotte Baer Memorial Clinical Faculty Award in 1983, the Faculty Teaching Award from the Department of Pediatrics in 1980 for excellence in teaching house officers, and the Kaiser Award for Excellence in Teaching in 1977. A Saul J. Robinson Day was declared on campus on April 17, 1986 to mark his retirement from active clinical practice. And he had several honors from Stanford, Mount Zion and Pacific Medical Center, where he also held appointments.

In April of this year, the Department of Pediatrics established a distinguished lectureship in Dr. Robinson's honor. Donations may be made to the Saul J. Robinson Fund and sent to Patricia Hunter, Department of Pediatrics, UCSF, 94143-0110. For further information call x69181.

Mitchison, Mostov Are New Searle Scholars

Two young UCSF researchers—pharmacology's Tim Mitchison (left) and anatomy's Keith Mostov (right)—are winners of 1989 Searle Scholar Awards from the Chicago Community Trust. They each will receive $180,000 to support their research activities for three years. Mitchison will work on the mechanism of chromosome movement in mitosis, while Mostov will do research on transcellular transport of immunoglobulins and the co-translation of membranes and proteins.

Top Honors to Pharmacy Faculty, Students

The School of Pharmacy is gearing up for its commencement on Sunday, June 18, beginning at noon at Davies Symphony Hall. A highlight of the ceremony will be the presentation of the prestigious Bowl of Hygeia to one of these five graduates, all from California: Robin Corelli of Lakewood, Douglas Fish of Lompoc, Valerie Tada of Hacienda Heights, Mary Taeubel of Orange, or Daniel Thoene of Sherman Oaks. (See the July 1 issue of *Newsbreak* for the winner.)

Meanwhile, 15 School of Pharmacy faculty and students were honored at the School's annual awards ceremony in May. The two adjacent photos tell the story.

(Left to right) Pharmacy student Denise Gomez took the ASUCSF School of Pharmacy Outstanding Service Award, while Donna Schroeder took honorable mention (just like last year!); Dale Kummerle was named the Academy of Students of Pharmacy Association's Outstanding Project Coodinator, while Leanne Kruse received the Academy's Outstanding Student Service Award; Dean's Award for Academic Excellence went to Douglas Fish, Mary Taeubel and David Sundin. Missing is Sylvia Brady, who shared the Outstanding Student Service Award with Kummerle.

Long Foundation Awards for Excellence in Teaching went to: (Left to right) teaching assistant Elaine Meng; clinical pharmacy resident Lorie Reisner (seated); Steve Echaves, full-time faculty; Rick Damato, volunteer faculty; Robert Middleton, clinical pharmacy resident; Alvin Wong, full-time faculty. Missing is Steve Kayser, full-time faculty.

ASUC Results

Results of the recent ASUC election show that 80 percent of the new officers are from the School of Pharmacy: Second-year student Iris Tam, executive vice president; first-year Rita Jue, vice president, academic affairs; first-year Richard Bates, vice president, community health; and second-year Kristin Oberg, vice president, student affairs. Arlene Roxas, third-year dentistry, has been elected executive director.

It's Your Smile

If you are in good health, need your teeth cleaned, or even a gold cap, crown or silver filling, why not consider being a patient during UCSF's licensure examinations? On Sunday, June 25, Tuesday, June 27, and Sunday, July 9, dental treatment will be provided at no charge by graduates of the dental and dental hygiene programs. For further information call x62712 weekdays from 9 a.m. to 5 p.m., or x64946 after hours.

Today/Tomorrow

10 Saturday

UROLOGY GRAND ROUNDS: *The Transrectal Prostatic Ultrasound & Ultrasound Guided Biopsy.* Stephen P. Taylor, Uro. *Incontinence & Voiding Dysfunction.* Richard A. Schmidt, Uro. Preceded by D&C reports & case presentations. HSW 300. 8:30-11 a.m.

DENTISTRY COMMENCEMENT

School of Dentistry graduation ceremonies include presentation of the Francis A. Sooy Chancellor's Cup to the top student. Masonic Auditorium. 1 p.m. (See story on page 1 for winners at annual awards ceremony.)

12 Monday

BREAST CANCER SCREENING SCHEDULE

Women can have low-cost mammograms—x-rays to screen for breast cancer—from a mobile van that travels to convenient locations in the Bay Area.

Women need the approval of their physicians to have the mammogram. The procedure takes approximately 20 minutes and costs only $50. To make an appointment call 990-0459 or x62193 between 9 a.m. and 3:30 p.m.

The van will be at the following locations for the next three weeks:

- June 12, 14-16: UCSF Laurel Heights in the parking lot, 3333 California St.
- June 13 a.m.: Health Center #3, 1525 Silver Ave. Call 468-3664 for appointment.
- June 13 p.m.: Southeast Health Clinic, 2401 Keith St. Call 822-2850 for appointment.
- June 19-23: Westlake Shopping Center, Daly City on Park Plaza Drive next to Safeway.
- June 26-30: Sunset District, on Irving St. between 25th & 26th Aves.

OTOLARYNGOLOGY/HEAD & NECK SURGERY CONFERENCE: *Update on Pediatric Anesthesia.* Claire M. Brett, Anes. Followed by departmental photo. S 214. 8-9 a.m.

OVEREATERS ANONYMOUS MEETING: *The "How" Concept.* Speaker to be announced. N 417. Noon. Call Lia, x64251.*

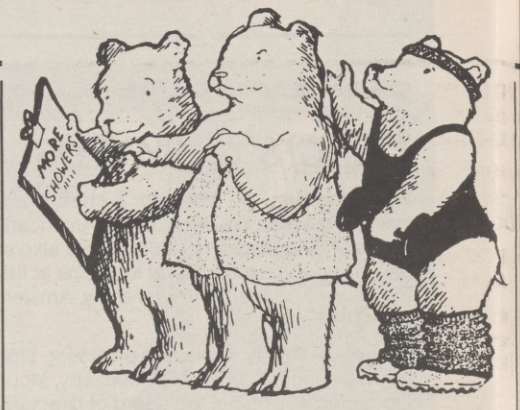
LOW VISION FORUM: *Celebration!* A party to celebrate a year of forums, and to suggest topics for the coming year. Clinical Eye Res. Bldg., 374 Parnassus. 11 a.m. For further information call Francis Neer, 626-5313.*

18 Sunday

PHARMACY COMMENCEMENT

School of Pharmacy graduation and presentation of the Bowl of Hygeia. Davies Symphony Hall. Noon.



19 Monday

RECREATION PROGRAMS REGISTRATION

Sign up for 1989 Summer Quarter Classes at MU Fitness Desk, 7 a.m.-7 p.m., on the following dates:

- June 19: UCSF students & MU members.
- June 20: Employees & general public.
- Registration continues thereafter from 11 a.m.-1 p.m. & 4-7 p.m. Call x61115 for availability of classes.

HIV WORKSHOP JUNE 19-20

Workshop on Mechanisms & Specificity of HIV Entry into Host Cells. Sponsored by UCSF Center for AIDS Research & Extended Programs in Medical Education. Toland Hall. 9 a.m.-6 p.m. $100 post-doctoral scientists, $40 graduate students. For program information call Nejat Düzgünes, x63213; registration information, x65808.

OTOLARYNGOLOGY/HEAD & NECK SURGERY CONFERENCE: *Pacific Coast Oto-Ophthalmologic Society (PCOOS) Presentation of Papers & Discussion.* Roger Boles, Oto. *Sinusitis in the HIV+ Patient.* Dale L. Tipton & Gary S. Mizono, both Oto. S 214. 8-9 a.m.

RETIREMENT PRESENTATIONS

Noon-time presentations & discussion on UC retirement plans by Office of Financial Planning/Benefits. (For details see page 6.)

- June 19: Carr Aud., SFGH.
- June 21: Hartsook Rm., CED.
- June 23: Toland Hall.
- June 29: Bldg. 7 Aud., VAMC.

OVEREATERS ANONYMOUS MEETING: *The "How" Concept.* Speaker to be announced. N 417. Noon. Call Lia, x64251.*

LABORATORY MEDICINE GRAND ROUNDS: *Studies of Coagulation in the Horseshoe Crab.* Robert Roth, Lab. Med. L 535. 4-4:50 p.m.

PEDIATRIC UROLOGY CONFERENCE: *Chapters 4 & 5—Clinical Pediatric Urology—Kelalis, King & Velman.* Paul Klosterman, Uro. M 460. 4:30-6 p.m.

20 Tuesday

OUTDOOR GEAR SALE

Outdoors Unlimited's annual sale of its used equipment. OU Center, U B15. Call x62078 for information & times.*

COMBINED MODALITY BREAST CANCER CONFERENCE. Surg. Clin. Conf. Rm., 6th fl. A. 8 a.m.

ORAL & MAXILLOFACIAL SURGERY GRAND ROUNDS: *Antibiotics in Head & Neck Infection.* Vincent Pons, Med. & Neurosurg. C 701. 8 a.m.

SFGH PEDIATRIC GRAND ROUNDS: *Attention Deficit Disorder: Current Treatment Options.* Glenn Elliot, Psychr. Carr Aud., SFGH. 8-9:30 a.m.

SFGH MEDICINE GRAND ROUNDS. Carr Aud., SFGH. 11:30 a.m.

OBSTETRICS/PEDIATRICS & ANESTHESIOLOGY CONFERENCE: John L. Kitzmiller, Ob/Gyn; Roderic H. Phibbs, Ped. & CVRI; Sol Shnider, Anes. & Ob/Gyn. M 1486. Noon.

WHO'S ZOOMIN' WHO?

Images of Black Women in the Media. Eco/feminist writer & film-maker Elena Fetherston. Sponsored by UCSF Women's Resource Center. HSW 303. Noon.*

MEET THE COUNCIL CANDIDATES

A chance for UCSF's Council's executive board candidates to meet their constituents. Faculty/Alumni House. Noon-2 p.m. (For details see story on page 6.)

June 10-30, 1989

INTERNATIONAL FOLK DANCING: Led by Dean Linscott. No partner needed. Beginners welcome. MU Fitness Center Aerobics Rm. 2:15-3:30 p.m.*

BIOCHEMISTRY/BIOPHYSICS SEMINAR: *Episomes in Transgenic Mice.* Francois Cuzin, Ctr. for Biochem., Nice. HSW 301. 4 p.m.

SFGH GI-MEDICINE/SURGERY/RADIOLOGY IMAGING CONFERENCE. Rm. 1X58, SFGH. 4-5 p.m.

NEUROLOGY GRAND ROUNDS: *Clinical Signs in Partial Epilepsy: Focus or Fiction.* Daniel Bluestone, Neuro. S 664. 5-6 p.m.

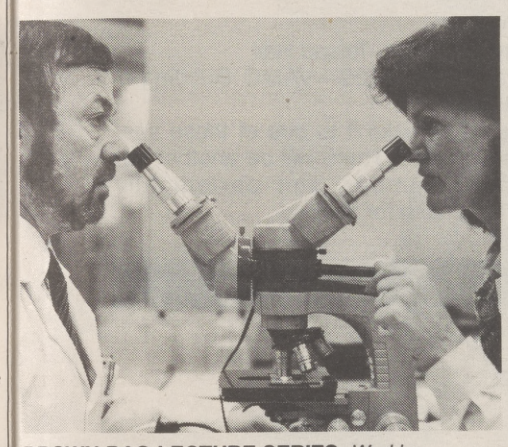
21 Wednesday

PLASTIC SURGERY GRAND ROUNDS: *Distal Radial Fractures: Classifications & Treatment.* Jeffrey Holmboe, Ortho. Toland Hall. 7 a.m.

SFGH ORTHOPEDIC SURGERY STAFF CONFERENCE. Rm. 5K8, SFGH. 7:30-9 a.m.

MULTIDISCIPLINARY TUMOR BOARD: M 1296. 7:30 a.m. Call coordinator Michele Hinojosa, x61662.

DERMATOLOGY CONFERENCE: *Epidemiology of AIDS.* Stephen Hulley, Epid. & Intl. Hlth. & Med. HSW 301. 8 a.m.



BROWN BAG LECTURE SERIES: *Working & Loving: The Challenge of Couples Working Together.* Dennis T. Jaffe, Saybrook Inst. HSW 300. Noon-1 p.m. Call x64394.*

PARNASSUS AL-ANON MEETING: For friends & families of alcoholics. C 517. Noon-1 p.m.*

ORAL AIDS SEMINAR

Interaction of Gram Negative Periodontal Pathogens with HL-60 Cells. Gary C. Armitage, Perio. Special seminar of UCSF Oral AIDS Center. C 130. Noon.

HEAD & NECK TUMOR CONFERENCE. A 723. 1 p.m.

VASCULAR SURGERY GRAND ROUNDS. 7 Long Solarium. 4-5:30 p.m.

SFGH GI-MEDICINE/SURGERY PATIENT CARE CONFERENCE. Rm. 4H2, SFGH. 4:30 p.m.

CHILD NEUROLOGY CONFERENCE. M 666. 4:30 p.m.

PATHOLOGY GRAND ROUNDS: *The Hospital Pathology Department: Administrative Issues.* Jacqueline Kuhn & Karen Akerson, both Med. Ctr. Admin. HSW 508. 5:30-6:15 p.m.

22 Thursday

SFGH NEUROLOGY-NEUROSURGERY CONFERENCE. Rm. 4H2, SFGH. 8-9 a.m.

PEDIATRICS GRAND ROUNDS: *Weak & Dizzy: Evaluation of Syncope.* George Van Hare, Ped. S 664. 8:30-9:30 a.m.

SFGH TRAUMA CENTER CONFERENCE. Rm. 4H2, SFGH. 9-10 a.m.

OCCUPATIONAL & ENVIRONMENTAL MEDICINE GRAND ROUNDS: *Applications of Clearance Concepts to Assessments of Lead in Drinking Water.* Frederic Bois, Pharm. SFGH Bldg. 30, 5th fl. 9:15-10:45 a.m.

PEDIATRIC TUMOR BOARD. L 34. 11 a.m.-12:15 p.m.

NEURO-ONCOLOGY TUMOR BOARD. L 34. 12:30-1:30 p.m.

CRI HEMATOLOGY/ONCOLOGY GRAND ROUNDS: Dana Zakalik, Hemat/Onc. M 1296. 1 p.m.

CLINICAL ONCOLOGY CONFERENCE. M 1296. 2 p.m.

MEDICINE/SURGERY ADULT CARDIAC CATHETERIZATION CONFERENCE. L 1361. 4-6 p.m.

ORTHOPEDIC SURGERY STAFF CONFERENCE. A 630. 4-5 p.m.

PRIMARY CARE GRAND ROUNDS: *Care of the Deaf Patient.* Ellen Hughes, Med. A 455. 4:30 p.m.

RADIATION ONCOLOGY CONFERENCE: Residents' Journal Club. L 34. 5 p.m.

ALCOHOLICS ANONYMOUS MEETING: All are invited. LPPI A 220. 6 p.m.*

PLASTIC SURGERY LECTURE/DINNER MEETING: *Reconstruction of the Burned Patient.* Bruce Achauer, Plast. Surg. & Burn Ctr., UCI. Faculty/Alumni House. Dinner 6 p.m. Lecture 7 p.m. $20. For more information call x63062.

23 Friday

SFGH MAXILLOFACIAL TRAUMA CONFERENCE. Rm. 4H4, SFGH. 7-7:30 a.m.

RADIATION ONCOLOGY GRAND ROUNDS: *Current Clinical Trials in Neurologic Oncology.* Michael D. Prados, Neurosurg. L 34. 8 a.m.

REPRODUCTIVE BIOLOGY SEMINAR. M 1486. Noon.

PATHS OF HEALING & WHOLENESS SEMINAR: *Body, Alive & Joyous.* Master bodyworker Charles Seltzer. N 517. Noon.*

ALCOHOLICS ANONYMOUS MEETING: All are invited. HSE 336. Noon-1 p.m.*

CPR Road Show. Traveling CPR instruction by volunteer instructors sponsored by the UCSF Center for Pre-Hospital Research & Training. For more information call Denise, x65802.*

Benefits/Personnel

In Case You Forgot to Read Your Drug-Free Workplace Memo

Here's a summary:

The Drug Free Workplace Act of 1988, signed into law last November, requires most government contractors, including UCSF and recipients of federal grants, to take steps to ensure a Drug Free Workplace. Thus, UC has constructed a policy to meet the requirements of the act. It includes:

- The University recognizes drug and alcohol dependency as treatable conditions and offers support programs for employees with substance abuse problems. Employees are encouraged to seek help and may request leaves of absence for this purpose. (UCSF provides FSSAP, the Faculty, Staff and Student Assistance Program, x68279.)
- Substance abuse at work—or in any manner that impairs performance at work—is prohibited. The consequence could be corrective action, which might include dismissal.
- The Drug-Free Workplace Act of 1988 requires that if you plead guilty or are convicted of a criminal drug offense at work or during any University business, you must make a report to your supervisor within five days of the conviction.

If you want the details on this, consult the memo from Chancellor Krevans dated May 19. If you have read the memo and have comments or questions, send them to Julius Katz at Box 0832 (for staff personnel) or Diane Dillon at Box 0400 (for academic personnel).

How Are the Funds Performing?

For those invested in the additional savings programs, here are the latest unit values and monthly factors (as of April 30). If you have questions, please call x69256.

	Monthly Factor	Current Rate
Savings	.0066	8.05%
Money Market	.0077	9.41%
GIC	.0071	8.69%

	Unit Value	1-Month Change	12-Month Change
Bond	$33.41	2.4%	10.6%
Equity	$56.89	5.1%	18.9%

Watch Out: Insurance Fraud

A memo from the UC Systemwide benefits office warns of an insurance fraud underfoot: Solicitors claiming to be from Kaiser are contacting targeted Kaiser members in an attempt to sell additional health coverage to them.

Kaiser officials have advised that they do not employ telephone or door-to-door solicitors. If a Kaiser member is contacted by one of these sales representatives, the individual should immediately notify either their plan representative at their local Kaiser facility or call Kaiser security at (415) 987-3004.

Mary Kahn from our benefits office adds that employees should beware of any salespeople from various insurances—be it health, life, disability or other— who call people at home or work and claim to have a University connection. Report it immediately, x61400.

Nominations Open for UCSF Council

Friday, June 16, is the last day you can nominate someone for the UCSF Council Executive Board. You can nominate yourself or someone else. Just remember, those eligible for election include all nonrepresented UCSF employees.

If you're interested, the list of offices and more detailed information is available on the ballot that was distributed through the campus mail. If you need one, call Sandy Norberg at x61400.

Take note: If you'd like to meet the candidates, there will be a reception for this purpose on Tuesday, June 20, from noon to 2 p.m. in the Faculty/Alumni House. The election will take place by campus mail shortly thereafter.

Find Out About UC Retirement Plans

If you're interested in finding out what UC has to offer in the way of retirement plans, plan to attend one of the following meetings presented by the Office of Financial Planning/Benefits. All meetings will be from noon to 1 p.m.

- Monday, June 19—SFGH Carr Auditorium
- Wednesday, June 21—CED Hartsook Room
- Friday, June 23—Toland Hall
- Thursday, June 29—VAMC Building 7 Auditorium

If you can't make it to one of these sessions, take heart. There will be another series in September, and periodically thereafter. Watch for dates.

Jobs

The Personnel Department, located at 1350 Seventh Avenue, is open to receive applications every weekday from 8 a.m. to 5 p.m. with extended hours on Wednesdays, 8 a.m. to 6:30 p.m. Details of jobs listed below are available in the UCSF Employment Opportunities flyers. Copies are distributed campuswide and also are posted at the Personnel Office and on the second floor of Moffitt Hospital.

Key to union codes:

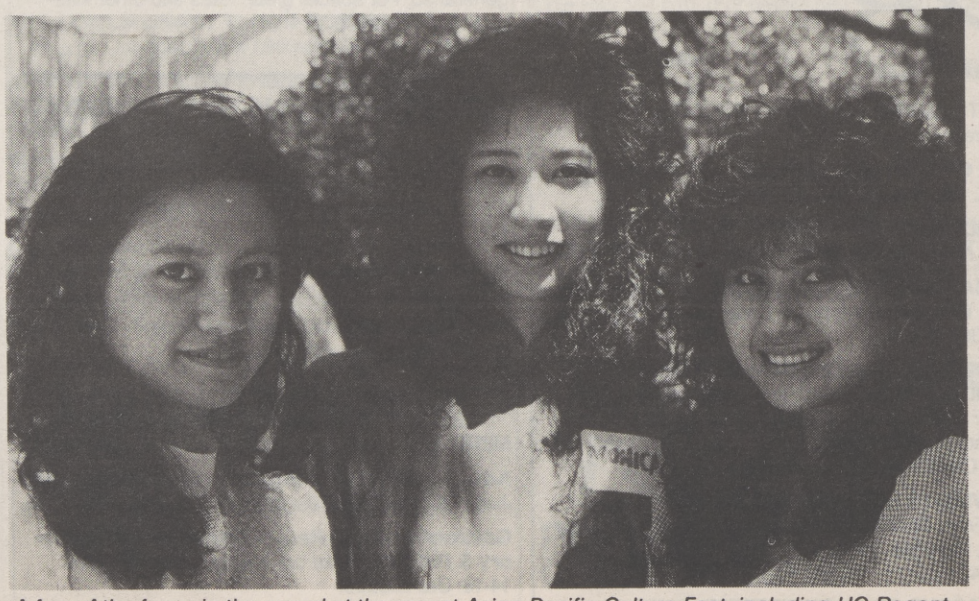
Public Administration Analyst. General Internal Medicine. #V-H66992. $2,333-$3,500. Filing Deadline: 6/21/89.

EMPACT!

Cultural Events in the Spotlight

Beginning with the spectacular Asian-Pacific Culture Fest in Saunders Court at the end of May, EMPACT! has added a new focus to its many-faceted agenda: Co-sponsoring cultural events.

"We want to get involved with Black History Month, Hispanic events and other cultural promotions," says coordinator Gail Mametsuka. If you attended the Asian-Pacific celebration, you can see they're off to a good start. The event, which featured all varieties of Asian dances, martial arts and other performances, plus booths representing several community organizations, was cosponsored by APASA (the new Asian-Pacific American Systemwide Alliance on campus), the Asian Health Caucus, and Health Education and Mobilization for Filipinos.



A few of the faces in the crowd at the recent Asian-Pacific Culture Fest, including UC Regent Yori Wada (pictured in top right photo with Vice Chancellor Thena Trygstad).

Medsounds Continued

Betty Pingree Moves Up Again

Two years ago Betty Pingree came to UCSF to help open and then serve as head nurse for the Surgery Center in the ACC. She supervised about two dozen employees in that position.

A year and half into that job, she became OR supervisor—over about 12 dozen employees.

Now she's accepted the position of manager of the clinical laboratories, which consists of five sections and 200 employees.

But wait a minute, you say. Betty's an OR nurse. What is she doing managing the labs?

What you didn't know is that Betty has an MBA from Ohio State University, and her previous experience, in addition to OR nursing, includes serving as an industrial cost and price analyst and then as a consultant with a corporation that set up ambulatory health care facilities all over the US.

"Actually, this new position aligns very well with my background," she says. "It combines the clinical and the business aspects."

It was more than her background that impressed the selection committee, notes the memo announcing her appointment. They also liked her energy and enthusiasm.

If you're inclined to give her a congratulatory call, hold off a bit. She applies that same enthusiasm and energy to the great outdoors, and currently she's running the rapids down the Colorado River through the Grand Canyon.

Venetta Bassett-Campbell Grew Up at UCSF

Venetta Bassett-Campbell first came to the Medical Center's Social Work Department in 1980 as a second-year graduate student doing her "field work."

The field work developed into a full-time job as a clinical social worker and eventually to her appointment as a supervisor in 1984.

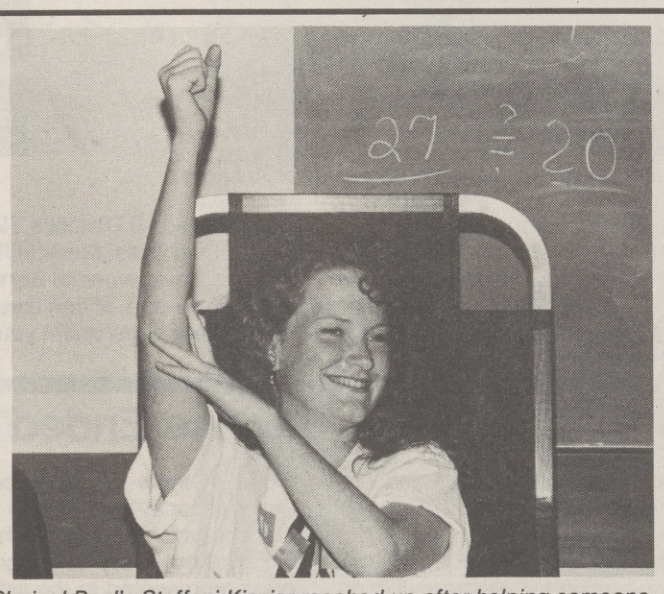
Five years later (nine years since she started), she's still here, and more than that—she's just been appointed associate director of the department.

"You can see, my whole career has taken shape here. I feel like I grew up at UCSF."

There *was* life before UCSF—although not far away. She was born and raised in San Francisco, did both undergraduate and graduate work at UC Berkeley, and now lives in the East Bay.

Only lately does life take her outside the Bay Area on a regular basis.

A little over a year ago she married her college sweetheart, a college track coach in Culver City near Los Angeles. He also heads a track club which frequently takes to the road. Both of these factors mean Venetta also frequently takes to the road. Thank goodness she lists as one of the hobbies she enjoys "track meet spectator."



Clerical Pool's Steffani Kizziar reached up after helping someone.

CPR Center's Gary Barton with two members of the Haight-Ashbury Clinic staff

Reach Out and Help Someone, Part I

As part of their increasingly active outreach program, the Med Center's Blood Donor Center recently set up shop at CED and staged their first full-blown blood drive at that site.

The Center—which collects blood specifically for UCSF patients—frequently conducts off-site drives at locations convenient to patients' friends, families and/or coworkers. But since many UCSF staff members have expressed interest in supporting the cause—and since it's not exactly convenient for CED people to get to Parnassus—the Center decided to provide a better opportunity. There was a quick, rather impromptu effort on an earlier date, but this was the first official drive at CED.

This time, they had a co-sponsor (the UCSF Council), a theme (baseball) and raffle prizes (baseball items). There were more than 50 participants in all, and practically that many won prizes. Top winners got Giants tickets: Security guard Cathy Oberhoffer, Accounting's Moises Mendoza and Accounts Receivable's Mike Grazer.

Could they call it a success? Yes!

Will they do it again? You bet.

Any parting words from the Blood Donor Center? "Thanks, CED!"

Reach Out and Help Someone, Part II

Here's "reach out and help someone" story #2, this one forwarded by Patient Relations' Rufus Battles:

Recently the Medical Center was approached by Darryl Inaba, director of the Haight-Ashbury Free Clinic's Drug Detox, Rehab and Aftercare Program, asking if we could provide CPR training and certification for the members of his staff.

The Med Center agreed to underwrite the training through special endowment funds, and on a recent Friday morning the entire staff arrived at the campus CPR Center for the training.

A letter from Inaba a few days later said " . . . because of these efforts, our staff is updated on the latest in life saving techniques, which we utilize constantly in our community health work.

"We consider UCSF to be part of our community and are therefore hopeful we can continue to work together toward better health in this great city."

Inaba specifically mentions CPR supervisor Gary Barton for his "patience, tolerance and truly excellent CPR instruction" and Administration's Kathy Balestreri for "going out if her way to make the arrangements."

(See future issues of *Newsbreak*/*Medsounds* for information on the CPR "Save-a-Life Saturday," taking place September 23 at Candlestick in connection with UCSF'S 125th anniversary.)

"Meet the Director" *(continued)*

moment request. There are days when they have as many as 20 or 30 requests, which often includes several last-minute calls for help.

Previously there was an interpreter newsletter, but the new staff has decided not to continue it, at least for now. They do, however, prepare a list of all the volunteer interpreters who provided their services during a month's time and distribute it throughout the Medical Center.

Finally, they always welcome questions and comments, and, of course, new volunteers. Call x61404.

An Emergency Department staff member asked:

What can be done about patient diversions—especially trauma diversions, which our Emergency Department is not staffed or equipped to handle?

This question was asked relative to a recent diversion from SFGH, when the radiology department there was temporarily closed, and they couldn't accept trauma patients because of it. The patients were diverted to our Emergency Department.

There are two issues here, replied Bill. In regard to general emergency diversions from other hospitals—because of nursing shortages and other reasons—the city is working on a policy intended to help solve the diversion problems. Sometimes there are two or three hospitals in San Francisco diverting patients at the same time. The policy would prevent diversions where possible—by providing a budget that would allow full staffing at SFGH, for instance—or try to make them more equitable when absolutely necessary.

As far as trauma diversions, these are rare. The problem with training our people to handle trauma cases is that lack of practice would result in loss of skills. There is no simple solution, only the hope that the rarity of the situation will keep it from becoming a major problem.

Other questions that came up:

- Why don't we have photos on our name badges?
- How can we as employees change the split payment system for our raises?
- Why are positions in the nursing department sometimes filled without advertising?
- Are there any alternatives to Medical Tech midpoint salary control?

You'll find the discussions that followed these and other questions in the minutes to the meeting, which are now available (or will be shortly) in your department.

Now Look Who's Moved: Susan Semonoff, Blood Donor Center, Kirby & Co.

Last issue, you learned that Med Center Publications' Dennis Piper and Andy Hulett had vacated their space in L 119 and moved to Planning & Marketing's new quarters at CED.

Meanwhile, Administration's Susan Semonoff and Gemma Rieser have moved into the space in L 119. They have the same extensions and box number as previously.

Down the hall, in L 131, the Blood Donor Center just moved in. The new location is better than their previous headquarters in the basement, says supervisor Jean Katz. It's easier for patients and families to find, it's more visible, *and* they have a storage room. Stop by for a visit, she says. And while you're there, roll up your sleeve and save a life.

Facilities Planning and Coordination, the group headed by Kirby Maples, also has vacated its basement location. Kirby, Bob Busby, Sergio DeAlba, Joyce Terrien and Jill Lezama have moved to LS (Laundry/Storehouse) 110, where Suheyl Atil's group used to be. Their extension is 64073. Box: 0972

Note: If you want Building Management (Dick Chan's group), don't call x64073! Call x63862.

Microcomputer Support's Dick Dixon also moved to LS 110. He's at x66709, same as always.

Why are all these people vacating the basement? It has to do with the forthcoming installation of a giant chiller. More on that later.

Buy a Present for Pop at Auxiliary Sale

Don't forget—the Auxiliary is having a three-day Father's Day gift sale in the Medical Sciences lobby next Wednesday, Thursday and Friday, June 14 through 16. Stop by anytime between 8 a.m. and 5 p.m. all three days.

The sale will be similar to the Valentine's and other gift sales they've had in the past: There will be baskets—the kind fathers like—and your choice of all kinds of edibles to put inside. Ten percent of the proceeds will go to the Auxiliary.

UCSF Medsounds

16 Years Ago, David Arevalo Arrived for a Summer Job . . .

In just a few more days, numerous youthful faces will begin to appear in departments throughout campus.

In the Medical Center, many of these faces belong to student volunteers—college, high school and junior high students who put in anywhere from 4 to 20 or more hours a week helping out in many areas.

There also is a sizeable number of high school students who are employees for the summer, this year from June 26 to August 18. The jobs are offered through the Chancellor's Summer Youth Program in affiliation with the SF Unified School District.

These generally are youths from economically disadvantaged families, who, in exchange for their time and effort, earn federally funded wages and acquire some job experience—and in some cases, even a career path.

Such was the case for David Arevalo. Sixteen years ago, when he was 16 years old and a student at John O'Connell High School in San Francisco, he applied for the summer work program and landed a job as a stock clerk in Respiratory Care's materiel processing unit, under the direction of equipment supervisor Al Lopez.

He liked the job, the staff liked him, and when school started again, David continued working part-time after school and weekends.

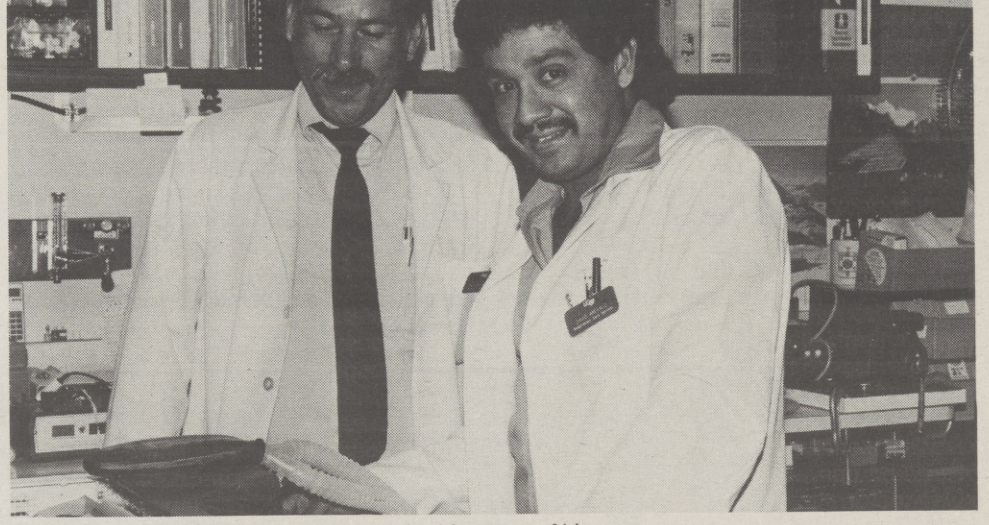
In 1976 he came to work full-time in the same unit, classified as a Hospital Assistant I; then bit by bit worked his way up, not only within his job classification, but in his knowledge of the workings of the various equipment used by the department.

He began as Al's understudy. He learned by watching and by helping. Then he started attending classes in the maintainance and repair of the ventilators and other respiratory equipment. His responsibilities began to expand in accordance with his skills, and his skills expanded further with the experience.

Recently Al called to say he was proud to announce that David had been promoted to senior electronics technician, a job more commonly called "biomedical engineer" around the hospital. He now is in charge of some 50 ventilators and the myriad associated equipment maintained by Respiratory Care.

"David," says Al, "is a daily reminder of what can happen if you offer someone an opportunity—especially someone as conscientious and dedicated as he is."

This is the 21st year the campus has offered summer jobs to high school students through this program, says Bob Rojas, Personnel's outreach recruitment coordinator.



Respiratory Care's David Arevalo (right) with mentor Al Lopez

He estimates 2,000 students altogether have worked here—with probably 40% of the placements in Medical Center departments. Students regularly are placed in nursing units, Nutrition & Dietetics, Respiratory Care, Materiel Services, Medical Records, Administration, Environmental Services, Admitting, Radiology—and, at one time or another, just about every department you can think of.

Meet the Director: New Child Care Center Coming? Staff Interpreter Service Ended?

There has been some talk that the YWCA may close its child care facility at CED. If so, what plans does the University have for opening a new child care center?

This was one of the topics that came up at the most recent "Meet the Director" session, in which employees meet with Medical Center director Bill Kerr to discuss work-related issues.

Bill replied that at this time UCSF has no plans for a child care center or anything else in the YWCA space. He reminded people that the subject of child care has been high on the priority list of the UCSF Chancellor's Advisory Committee on the Status of Women (CACSW), chaired by Diane Wara.

Last year the CACSW conducted a survey which was distributed to the entire UCSF campus community. There was a 21% return.

Based on this return, the committee has just finished a report for Chancellor Krevans with suggestions for developing child care facilities (beyond what exists on campus), infant care, sick care, extended hours care, weekend and holiday care, summer care, child care subsidies for low income employees and other issues.

The next news will come after the Chancellor has had a chance to review the report and meets with CACSW to start looking at an appropriate course of action.

Another employee asked:

Has the volunteer interpreter service been dropped? I haven't heard anything about it for awhile.

Bill responded that the Staff Interpreter Service, which is a program of the Patient Services Office, is very much alive and well and functioning. But there are some changes taking place. Patient Services has a new coordinator, Rufus Battles; and the staff coordinator for the interpreter program, Gloria Alonzo (who speaks Spanish and serves as an interpreter herself), is also a new employee.

Rufus and Gloria elaborate: During the past couple of months they've been making a big effort to update the list of interpreters. Right now, they have about 500 interpreters from around the campus listed on the computer, but Gloria estimates about 200 of these are active.

They also plan to conduct a skills assessment, so they can better match interpreters with requests.

"For instance, some people are capable of handling very complex translations," says Gloria. "Others are more comfortable at a conversational level. There are all different levels at which people can help."

Just about every language you can imagine is represented in the list of interpreters. The overwhelming majority of requests, however, are for new immigrants—especially Cantonese, Spanish, Korean, Cambodian, Vietnamese, Laotian and Japanese.

"We can use as many interpreters as we can get for these languages," says Gloria. Friends and relatives are welcome to sign up as well, since frequently the translating can be handled over the phone.

They try to fill all requests for under 45 minutes with volunteer interpreters before resorting to a commercial language bank. But sometimes it is hard to find an available staff member, especially if it's a spur-of-the-

(continued on page 7)

Hoe-Down at Oyster Point

Rosalie Blakeman and Orin Walker won the "Best Dressed" competition.

Here's how you transform the back patio of the Laundry at Oyster Point into a pass-for-perfect hootenanny:

First you line the patio with RVs.

Then you pitch a tent for shade, place hay bales in strategic places, and move in wooden tables covered with checkered cloths.

Then you fire up the barbecue, turn on the music and set out the relishes.

Then everybody arrives decked out in cowboy hats and boots, and eats all the barbecued ribs, chicken and sausage they can hold.

Then you have a drawing in which almost everyone wins a prize, eat some more, top it off with dessert, then eventually reconcile to going back inside to work.

What was the occasion?

Western Day.

Why?

Why not?

Live Together, Work Together, Quit Together

Laundry retirees Purification and Severino Cinco

Purification and Severino Cinco were among those honored at the recent Staff Service Award Ceremony. They were childhood sweethearts, then partners in marriage, then co-workers in the Med Center's Laundry/Linen Services for 17 years. And now they're retiring together. But the responsibilities aren't *quite* relinquished. They have four children, and three are still at home.

Along with Purification and Severino, 100 people were honored during the ceremony—83 retirees and 19 people who have reached their 25th year of employment at UCSF.
